CEP 89036-900 | Blumenau – SC – Brazil

new textile horizons.

TERROT JOINS THE KEY EVENT FOR THE TEXTILE INDUSTRY IN BRAZIL AND LATIN AMERICA.

Chemnitz, August 14, 2024 Terrot Textilmaschinen GmbH is excited to announce its participation in Febratex 2024, the premier event for the textile industry in Brazil and across Latin America. Febratex has established itself as an essential gathering for industry professionals, offering a platform to explore the latest technological innovations, trends, and business opportunities.

At this year's event, Terrot will proudly exhibit the Pilotelli JVCE-4 machine, demonstrating our commitment to advancing textile technology and supporting the industry's growth. We look forward to engaging with fellow professionals and showcasing our cutting-edge solutions.

Don't miss your chance to be part of the next success story, discover our latest developments and connect with our sales team. You are cordially invited to visit the **TERROT TEXTILMASCHINEN STAND 43, SECTOR 01 RUA 03 CORNER RUA 07.**

A highlight at our stand will be live demonstrations of our single-jersey machine JVCE-4-3.0 tubular frame from the prestigious Pilotelli product line. Machine model is celebrated for its high production capabilities in outerwear textiles. It excels in knitting single-jersey fabrics, including plain single (up to E44), piqué or two-thread fleece. Machine specifications at Febratex: Diameter: 32" | Gauge: E36 | Number of feeders: 96

Martin Vorsatz, Managing Director of Terrot Textilmaschinen GmbH, highlights: "We are thrilled to announce Terrot's participation at Febratex 2024, an event that promises to provide new impulses and insights for the textile industry. We eagerly anticipate the opportunity to connect with our valued customers and partners, industry experts, and all interested parties. Our vast experience and technical expertise will unquestionably bolster Terrot's standing in the global market. We are certain that our circular knitting machines will consistently uphold the highest standards and surpass our customers' expectations."

ABOUT TERROT TEXTILMASCHINEN GMBH

For over 160 years, Terrot has been a premium partner to the textile industry worldwide. With its Terrot and Pilotelli product lines, the company is present in 120 countries. The innovative circular knitting machines offer the most flexible solutions for different customer requirements. The trademark and Unique Selling Points of Terrot are highly efficient, durable and particularly versatile circular knitting machines with the focus on high-quality products and services. The product range extends from the finest single and double jersey circular knitting machines to highly developed electronic double jacquard machines. Top manufacturers and well-known brands from all over the world produce their knitted fabrics for sports, leisure and fashion industries on Terrot machines. Mattress covers, home and technical textiles, including those for the medical and automotive sectors, are also produced on Terrot circular knitting machines. A network of more than 50 qualified sales agencies guarantees the worldwide contact and professional support of customers, the service of existing machines, the supply of spare parts as well as the commissioning of new machines.

ABOUT SANTONI SHANGHAI

Established in 2005, Santoni Shanghai Knitting Machineries Co., Ltd. offers a full range of innovative textile knitting products and solutions to its customers. With two decades of journey, its business expanded with multidimensional organic growth and through acquisitions. Today Santoni Shanghai owns several circular knitting machines brands, particularly JingMei for the large diameter, Hengsheng for the mid and SOOSAN for the small diameter before adding up Terrot and Pilotelli, both focused on large diameter production. Fueled by this enormous combination of capabilities Santoni Shanghai aims to take the experience of its customers to a different level with the development of the ecosystem that offers a Knitting Platform for the intelligent manufacturing plant, “Materialliance” a portal connecting designers and makers, an Innovation Lab, C2M solutions like the recently launched “MyKnit” program, and Textile Automation offerings.
